19th	Thu	1830	Sept. Cup	6.42	2204
22nd	Sun	1100	Sept. Cup	5.58	1153
26th	Thu	1830	Sept Cup	6.69	1714
*28th	Sat	1500	Sept. Cup	7.67	1852
		1245	September Cup Presentation		
29th	Sun	<i>Dale Half Marathon</i>			

## Notes

1. Trophies will be awarded each month
2. Where a start time is not given above please refer to the event organisers
3. The above dinghy racing programme has been prepared to provide a height of 2 metres above chart datum (i.e. 1.5 metres of water at the inshore buoys) for a period of one and a half hours after the start. Occasions when the depth may fall short of this requirement are marked thus \* in the programme. Helmsmen with deep-draft dinghies should ensure that they will have sufficient water for their craft.
4. Sailors' suppers may be available for competitors and helpers in the Club after the race on Thursday evenings.

As a rough guide, the bottom of the slip dries at about 2.0 metres above chart datum and the tidal rise in 10 minutes for a tide range of 6 metres is:

1 hour after LW	12cms (5 inches)
2 hours after LW	22cms (8.5 inches)
3 hours after LW	25cms (10 inches)
